Ex "The Tribe" e agora "Tribe Pass", \u00e9 um jogo onde cada situa\u00e7\u00e3o realmente importa a escolha certa. \u00c9 interessante e explora a fun\u00e7\u00e3o de lideran\u00e7a por sua parte, na qual voc\u00ea emprega como um xam\u00e3 da tribo e os guia atrav\u00e9s das dificuldades de explorar o mundo em busca da sobreviv\u00eancia. Um game que para seu estilo est\u00e1 bem polido mas nada que n\u00e3o possa ser melhor e mais envolvente.

Vale a pena a compra.

Nota 6.9/10 (Sou bastante crtico vai por mim.)

;D. I knew this game would be hard, but looking at the videos, I thought I could handle it.

All the videos are of the easy levels.

This game is janked.. I MADE A PONY! IT WAS GREEN! I TALK TO GIRLS! THEY GET MAD WHEN I TALK ABOUT MONEY! WTF IS THIS REAL LIFE! EVERYONE WALKS TO FAST BECAUSE THEY HAVE 4 LEGS! NERF THE LEGS! YOU ONLY NEED TWO!. I love the Soul Series.

There is no doubt that DARK SOULS 3 is a pretty hard game. But its a game that's fair at the same time.

You know that every time you die it was your own fault.

What I love the most about DARK SOULS is, that it motivates you to get good at the game. Its really exhausting when you fight a boss you really struggle with, but its feels even better when you finally overcome them.

And it has an awesome PvP system ;). Great collection of arcade games. They all work pretty well apart from the bowling part that could use some adjustments. It's fun, you have high scores and there's something for everybody. You even get to use the robot arm to try and pick up prices. Can absolutly recommend these arcade games if you want to kill some time and have some fun, or just show a friend what VR is.. +1 \ud83c\udfc0. This game is absolutly amazing, such a great concept, but there is very little content besides flying around aimlessly also please raise the ceiling hieght and increase the world size in general as once you get some speed your at the end of the world already... also some missions and enemies or maybe some time trials or target practice something anything please add it :) oh and devs thank you this is one of my favorite games period awesome job so far oh and desrtuctable environments would be nice too.. Surprisingly fun. Sort of like Indianna Jones meets Cube meets Bejewelled.. You can't set resolution, it's like 2k or 4k all the time :/

Very nice and short game with excellent writing!

If you're a fan of sci-fi and well-rounded characters you'll probably enjoy every second!. Really fun, steampunk themed mini-golf. The visuals look great and the courses are varied.

Constructive criticism - better manipulation of the camera, option to hide the club itself while shooting, and scale the power meter to make it less "touchy" for the first 25% or so.. I do not recommend this game in the slightest....it feels absolutely soulless.....Go here find this keycard...back track to the door you couldn't open....rinse repeat....Generic enemy and sound design....A retro style is no excuse for boring gameplay

. Just beat Doorways: Holy Mountains of Flesh. I have to say, this ones a hard call. The cut scenes were complete crap and the controls were clunky at best. But, there were still some great visuals and the idea and story line once you actually got far enough in the game were good. Overall though, I don't think I can actually recommend this game.. This game is so much fun and super addicting. It is relaxing and cute and I just love it. Time just flies by as you play. If you love plants, definitely get this game.. This game is surprisingly entertaining and can be addictive.
