KMS Activator Ultimate 2.0 Activator is a powerful Windows and Office activator, including Windows Vista SP2/7/8/10 and Office 2010, 2013, 2016. It will activate most of your system to the licensed status automatically by scanning the product key with KMS server. And it will work on most of the systems as well as on Virtual Windows 10 and Linux operating systems!

Examples: 1) If you want to activate a virtual machine on VMware Player or any other emulator you have that supports KMS activation then it won't work because VMware doesn't support this feature. So for this purpose we use KMS Activator Ultimate 2.0. 2) If you want to activate a software on Linux Operating System than there is no need to install the activation tools on the system. You just have to download KMS Activator Ultimate 2.0 and run it on your laptop.

A graphical user interface allows for easy and direct configuration of features and operations, and improved management of system resources and installation types, such as parallel and unattended installations.

Well-known software companies such as Google, Microsoft, Adobe Systems Incorporated, Oracle Corporation, Symantec Corporation, ISS Inc., Nortel Networks, Skype Technologies S.A., Yahoo! Inc. and many others have been using KMS Activator Ultimate 2.0 to fulfill their needs of activators for their software products.

In addition to many software products from well-known companies, KMS Activator Ultimate 2.0 is also used by many independent companies and individuals to activate their gadgets and devices.
