

---

Computer monitors are becoming more and more accessible as they become thinner and smaller. But what happens when you want to take it with you? You can purchase a monitor arm, but these are often expensive purchases. In the meantime, there is a simple solution for this: view play cap. It's compact, travel-friendly and sturdy enough to hold up against daily use or office follies View playcap is compatible with most modern windows computers and comes in different sizes and shapes - one of them even resembles a mouse! Keep your screen safe from knocks by using the built-in stand that clicks into place, or opt for the foldaway design if you prefer not to have it soothed. Free up some more room by attaching your keyboard and mouse, or use it as a daily laptop stand if you want to keep your screen height at an optimal height. The cap is made of anti-scratch materials which means you can rest assured that your computer will be safe against scratches despite any bumps or drops. There are also two types of protection available, one of which is for heavier duty computers using thick monitors. The other type will protect lighter duty computers with thick monitors. The thick monitor protection cap will protect your monitor from minor falls and bumps, while the other type will protect against minor falls/bumps and drops. This means that the thicker one will offer more protection and is suitable for larger and heavier monitors. View playcap is designed to be compatible with most modern computers. Keep your screen safe from knocks by using the built-in stand that clicks into place, or opt for the foldaway design if you prefer not to have it soothed. Free up some more room by attaching your keyboard and mouse, or use it as a daily laptop stand if you want to keep your screen height at an optimal height. The view playcap is specifically designed and made in Korea so that it can be used in Korea and also in other countries.
